He then called out to know if there were any "unbelievers" present. To his astonishment we announced ourselves still an "unbeliever." Hethen put a shov-el in the stove and partially filled it with shot; when the shot had got pretty hot he stirred them with his naked fingers until the lead had melted. He then took the shovel in his right hand and poured the hot melted lead in his left hand, and then poured the burning solution into his mouth, kept it there until cooled, and spit it out in a lump. We then expressed our-selves entirely satisfied. He said that was a \$20 performance; if they would make him up \$50 he would show them some-thing worth seeing.

HOOFLAND'S GERMAN BITTERS

any kind.

Is different from all others. It is composed of the pure Juices, or Vital Principle of Roots, Herrs and Barks, tor, as medicinally termed, Extracts,) the worthloss or inert portions of the ingredients not being used. Therefore, in one holds of this Bitters there is contained as much incliqual virtue as will be found in several gallons of ordinary mixtures. The roots, etc., used in this hitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist, and forwarded in the manufactory in this sity, where they are compounded and bottleif. Containing no spirithous ingredients, this litters is free from the objections urged against all others. No desire for stimulants can be induced from these line; they cannot make drunkards, and cannot under any circumstances have any but a beneficial effect.

HOOFLAND'S GERMAN TONIC

Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcohols stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ Bitter, combined with pure SANTA CRUZ Bitter, and described in such a manner that the extense bitterness of the Bitters is overzome. Officing a preparation highly agreeable and describe to the Bitters. The price of the Tonic is fiftly per hostle, which many persons being the fifth per hostle, which many persons being to the Bitter which the stimulant used is caranteed to be a large quality. A poor article could be fur assisted at a cheaper price, but is it not better to be a large distinct and have a good article? A medicinal preparation should contain none but the best ingredients; and they who expect to obtain a cheap compound, and be benefitted by it, will most certainly be cheated.
